

SUMMONING TO BEGIN SOON

Copies of Master List Being
Prepared Will Be Mailed
To-morrow

DRAFT TASK NOW FACES LOCAL BOARD

General Crowder Praises
Work of Press in Carry-
ing News of the Draft

Washington, July 23.—Despite the fact that officers and clerks of Provost Marshal General Crowder's office worked all Friday night to complete the drawing that fixed the order of military liability of 10,000,000 registrants, the tally sheets had been compared and corrected before dark Saturday night and the master list was in the hands of the printer. Copies will be mailed to local exemption boards beginning not later than Tuesday, and the summoning of the first draft of 687,000 men can begin.

Gen. Crowder Saturday night issued the following statement: "The drawing is complete and has been apparently successful. The official tally sheets have been compared, sent to the printer and the proof is being received. Final copies will be ready for distribution not later than Tuesday.

"The next step will be the certification of the results of the drawing to 4,557 local boards and the application by each board of its chart to its serially numbered list. This need consume but little time and when done the order of priority of the nearly 10,000,000 registrants to report for examination will be revealed. Such additional drafts as may be ordered by the president will be filled by calling men in the order of this established priority and no further drawing will ever be necessary. Each local board upon receipt of its chart and upon notification by the governor of the quota to be regulated by it may proceed at once, under regulations already promulgated, to summon men for examination.

"We now have passed the stage in the execution of the selective service act when we must have concert of action by the states. In raising state contingents the race is to the swift.

"I cannot let this opportunity pass without adverting to the very great value of the assistance which has been so earnestly and efficiently rendered by the press.

"Without the systematic campaign of public information that prepared the country for the registration, the enrollment of 10,000,000 men on the fifth day of June would have been impossible. The generous support of the newspapers through the period since registration day is appreciated and only the most thorough efficiency could have placed upon the streets within a few hours after the first number was drawn lists for each registration district, showing the names of the persons who would be summoned for examination on the first call of the local boards."

Gen. Crowder also made public the text of the regulations for their application which will accompany the master lists. The only new feature shown is the plan for handling cards that are found to have duplicate numbers or are otherwise confused, and also of dealing with those received July 10 when the local boards closed their lists to begin numbering.

By the plan worked out these additional cards will be given an order of their own by lot and will then be added to the lists of the districts from which they come, and be affected by the drawing precisely as though they had been received and numbered before the board lists were closed. Where several cards bear the same serial number one will be drawn from the group and retain the duplicated number, while the others will be regarded as unnumbered and the process of adding them to the lists be followed.

Another step accomplished during the day was the appointment of the district boards of 32 of the states and announcement of the names of the five men who will compose each of them. Some states have six or eight boards to ease the task, federal judicial districts, the areas used for geographical distribution of the boards, being divided into two or three sections for that purpose and a separate board named for each.

Why Salesmen Sometimes Fail.

In a story about a wonderful salesman, a writer says in the July American Magazine:

"Asked for his views on salesmanship, and to give suggestions that would be helpful to others he said: 'Any person can sell to any man who wants to buy, but it takes a salesman to sell to the man who doesn't want to buy. It took me five months in one case to work my way into the confidence of a wealthy man who hated his insurance agents, and we had been acquainted a month before he discovered that I was selling insurance. He later had me write him up for a \$10,000 policy.

"A salesman should know his goods forward and backward, know human nature like he knows the alphabet, and not lie. Self-confidence, which is indispensable to success, results from exact knowledge of what you are offering to sell, and knowledge of your prospect.

"Salesmen sometimes fail because they have a set way of dealing with all kinds of people. They will never do. They should learn to adapt themselves to all sorts and conditions of men—and women. Use an easy conversational tone. Be natural. Don't get excited or talk loud. Make strong positive assertions about your goods. You must be absolutely certain that the article you are selling is the very best on earth. Then stop talking before you kill the sale by talking too much."

TWO NEW ORDERS

Have Been Instituted by King George for Manifold War Services.

London, July 23 (correspondence).—Two new orders have been instituted by King George in recognition of the manifold services, voluntary and other, that have been rendered in connection with the war. The first is the "Order of the British Empire," consisting of five classes, to be given to women as well as men, the first two classes carrying the honor of knighthood for men, and in the case of women the privilege of prefixing the title "Dame" to their names. The five classes are:

For men—Knights of the Grand Cross, Knights Commander, Commanders, Officers, Members.

For women—Dames of the Grand Cross, Dames Commander, Commanders, Officers, Members.

The second order will be entitled, "Order of the Companions of Honor," consisting of one class only, for both women and men. The order carries no title or precedence and will be conferred on a limited number of persons for whom special distinction seems to be the most appropriate form of recognition. The prince of Wales has been appointed grand master of the order.

The badge of the Order of the British Empire for the first three classes is a silver gilt cross, enameled pearl gray, with a circle enameled crimson center with a representation of Britannia. The circle contains the motto, "For God and the Empire." The star for the first two classes is an eight-pointed silver star, the center of which bears the same device as the badge.

The fourth class has a badge similar to the first three but is smaller and not enameled.

The fifth class badge is of silver gilt.

TO CARE FOR ALLIED WOUNDED HERE

Plan Considered Probable at Washington—German Prisoners May Also Be Brought to America.

Washington, July 23.—Wounded soldiers of France and England may be brought to the United States for treatment and for convalescence. War department officials have had the question under consideration for some time, and it was learned Saturday that adoption of the plan is probable.

It also has been suggested, as some consideration has been given the question, that German prisoners be brought to America instead of holding them in camps in France or in England. The care of prisoners and wounded here would materially lessen the burden of feeding them and make it unnecessary for the governments of France and England to divert the considerable part of their provisions to the support of so large a non-fighting force. The intention is to bring the wounded and prisoners over in the transports which carry American troops to France.

MORE REWARD FOR LABOR

Is Likely to Come After the War, Says Archbishop of York.

Leeds, England, July 23.—The Most Reverend Cosmo Gordon Lang, archbishop of York, is one of the most democratic bishops in England, and during the course of a speech at the Leeds chamber of commerce said he could not imagine the old system of private property in industry surviving long. Industrial changes after the war, he thought, would be far reaching, and it was inconsistent with the development of that democratic spirit which the war had helped to foster that the old system should continue.

Co-operation between capital, management and labor would be necessary, capital must be prepared to receive less and labor must be assured of its just reward. The most helpful method of securing this co-operation was to establish boards representative of capital and labor, and success depended primarily on a new spirit in which each side would really try to appreciate the position and to sympathize with the problems of the other.

Do You Know What It Costs to Clothe Children?

A man who spends \$9,000 a year on his three children asks in the July American Magazine if he is right or wrong. The magazine would like to know if people think that sum too large or too little. The writer of the article says:

"Have you any idea what it costs to clothe three youngsters? It's marvelous how quickly kids can wear out or outgrow dresses and how a lively boy can go through suits of clothes. If I had preserved all the bills I've paid for those three offspring of mine it would make an imposing pile.

"Clothes! Clothes! Clothes! Oh! it's wondrous what we fathers pay for clothes. The coats, the cloaks, the stockings and such—where do they all go?

"Did you ever stop to think of the shoes a child wears from babyhood to maturity? I'd like to see a collection of my children's shoes.

"What a variety of shoes there would be in that lot. I remember the knitted shoe, half sock, half shoe, my first-born wore. Then there was the baby kid shoe with the half strap across, a dainty, tiny thing that always attracted me. After that came real shoes, and oh, how fast they wore out! No wonder, when you consider that the nearest approach to perpetual motion is a child that has just learned to walk."

ANTI-DRAFT ARMY IN CANADA.

Quebec Leader Says He Has 500 Men Led by Ex-American Officer.

Montreal, July 23.—Elie Lalumiere, a prominent leader in the anti-conscription movement, declared at a street meeting here Friday night that he was ready to form an army, adding, "and I have already 500 men who are drilling." Their commander, he said, is a former officer of the United States army.

Later Lalumiere said that the "army" was not being raised for attack, but "to be prepared if they come to take us from our homes."

Quarrel This
Week

GEN. GOETHALS WANTS TO QUIT

Writes President Situation
Hopeless—Three Courses
Apparently Open

Washington, July 23.—President Wilson has made up his mind to intervene in the shipbuilding row, and will take steps to resolve the situation soon after he returns to Washington from a week-end trip on the Mayflower.

The president's decision to put an end to differences that have halted the government's building program came after he had received a letter Friday from Maj. Gen. Goethals, declaring that the situation appeared hopeless and that the general would resign. There was no information concerning the president's reply, but officials familiar with events of the last week thought Saturday night that the president may have asked Gen. Goethals to give him time to go into the situation.

Difficulties between Chairman Denman of the shipping board and Gen. Goethals, manager of the board's emergency fleet corporation, starting over the board's wooden ship plans, came to a head a week before last when the president authorized the fleet corporation to build ships and directed the board to operate them. Gen. Goethals taking the order to mean that as general manager of the corporation he would be given a free hand, announced a building program which he said he would start last Monday.

The start was postponed at the request, Gen. Goethals said, of Chairman Denman, who asked a short delay to give the shipping board time to go over the plans. Mr. Denman has declared he asked for no delay, but did ask that the general submit in detail his plan, as the shipping board, responsible for the expenditure of the millions of dollars appropriated, wanted to know how it would be spent.

For a week members of the board and Gen. Goethals have been going over the program. Although Chairman Denman has announced that progress was being made and that a completed program on which everybody could agree was in sight, there have been persistent reports of friction. At least two members of the board were said to be inclined to take the side of Gen. Goethals when disputes arose.

The president's course in settling the situation was a matter of much speculation Saturday night. Although in signing the executive order transferring to the shipping board and the fleet corporation the powers conferred on him by Congress, he followed the suggestion of Mr. Denman, it is known the president would be reluctant to lose Gen. Goethals' service. There is reason to believe, too, that the president would hesitate to displace Mr. Denman.

Officials in close touch with the situation think the president may adopt one of three courses. He could leave the status of both officials very much as it is and make a personal appeal to both to bury their differences and work in harmony. Again he could give full powers to Gen. Goethals and direct the shipping board not to hamper him in any way. Another way suggested is that he could give Chairman Denman full authority and ask Gen. Goethals to render a patriotic service by following the shipping board's plans.

WEST NEEDS RAIN TO SAVE ITS GRAIN CROP

Continued Dry Spell Means a Yield Far Below Normal.

Minneapolis, Minn., July 23.—Due to continued dry weather the grain crop throughout large portions of Minnesota, the Dakotas and Montana at present seems likely to be considerably below normal, according to a crop report issued by the ninth district federal reserve bank Saturday.

The present outlook, according to the report, is for a normal crop in the central and southern portions of Minnesota, the eastern part of South Dakota and the portions of northern Michigan and Wisconsin included in the bank district. "However," says the report, "the crops in northwestern Minnesota will be somewhat below normal, considerably less than normal in western North Dakota, Montana and the western half of South Dakota.

"The urgent need at the present time," reads the report, "is that of widespread soaking rains."

SWEDEN'S CROP REPORT

Shows a Below Medium Yield and Some Provinces Show Total Failure.

Stockholm, July 23.—Crop reports from all provinces of Sweden for May 31 show an average condition for the whole kingdom markedly below a medium yield for most crops. Two weeks of scorching drought since the date of this report will have materially lowered this average. Some provinces report almost a total failure of cereal crops. The figures for the most important crops follow, marked on the basis of - for a very good crop, 4 food, 3 medium, 2 decidedly below medium and 1 practically a failure:

Winter wheat, 2.5; winter rye, 2; spring wheat, 2.7; spring rye, 2.3; barley, 3; oats, 2.9; beans, 2.8; potatoes, 2.6; sugar beets, .26; hay, 2.7.

SEES GERMAN WHEAT GONE BEFORE HARVEST

State Department Hears It Lacks 600,000 Tons of Lasting Till

Aug. 15.

Washington, July 23.—A cable dispatch to the state department reports that persons who have been in Germany recently assert that Germany lacks 600,000 tons of wheat of the amount necessary to reach the middle of August, when the harvest is gathered. The military governor of Allenstein, eastern Prussia, it is said, issued a notice that there would be a great lack of bread and wheat from June to August. The harvest prospects are said to be good only in western Germany.

It has been rumored that a part of the American provisions sent to the commission for relief in Belgium have been consumed in a German military hospital near Antwerp.

In Poland there is said to be increasing misery, and many people are starving to death.

There is a report also that in a meeting of the main committee of the Reichstag Matthias Erzberger, the center leader, made an attack upon Admiral Von Capelle, whom he accused of having manipulated statistics as to the results of the U-boat warfare.

The dispatch reports that an American citizen who lately arrived from Berlin said that the food situation had become appreciably worse during the past three months. Among German people there is no optimism as to the amelioration of conditions at the next harvest, as the crops in eastern and northern Germany are known to be bad because of the dry and late spring and the lack of labor and fertilizers.

Another correspondent reports that tension between Austria-Hungary and Germany is extreme, to the extent that internment camps have been opened in Germany for suspected Austrians.

He believes that there will be no revolution in Germany. The emperor's popularity is steadily diminishing, and even the nobility will be glad to be rid of the Hohenzollerns, but there is no chance of an uprising because of military discipline. He also thinks that there is no chance of bringing Germany to her knees by starvation, but says that the want of war materials of all kinds will make it impossible for her to fight through another winter.

GERMANS STARTED RUSSIAN MIX-UP

Kerensky Blames Agents of the Imperial Government for Recent Disturbances in Petrograd—Trouble Suppressed Completely.

London, July 23.—The recent disturbances in Petrograd were instigated by agents of the German government, says Premier Kerensky in a message to the sailors at Revel, Helsingfors and other ports, according to a Petrograd dispatch Saturday. The new premier appeals to all democrats to stand by his provisional government. His message reads:

"It has been established without doubt that the disturbances in Petrograd were organized by agents of the German government. The disturbances now have been suppressed completely, and the arrest of the leaders and those guilty of the blood of their brothers and crimes against the government and the revolution is proceeding. Arrests are also being made among the sailors who acted contrary to their civic and military duties.

"I appeal to all true sons of democracy to rally round the provisional government and the democratic organizations throughout Russia to save the country and the revolution from the enemy without and his allies within."

CLERGYMAN WORRIED

Over What Great Britain Will Do with Aroused Energy.

London, July 23.—The bishop of Peterborough is worried about the marriage problem after the war and has called attention to the possibility that, in view of the number of men killed in the war, women may have more difficulty in finding husbands than heretofore.

"One grave question of the future," he said, "probably the near future, is the ideas of marriage which will prevail. It is possible that the holy estate will be attacked in a way we have never known; we may be confronted by efforts of many people, in view of the present unprecedented situation.

"What is to be the equivalent of man and other work?" he asked. "Where are the forces that have been generated to find their outlet? Some scope there must be for the surpassing energy the war has brought forth. To that problem the church must find the answer, and not a mere routine answer."

NEW MEXICAN COIN.

Gold Piece Will Be Put into Circulation Shortly.

Mexico City, July 23.—A new Mexican coin will be put into circulation shortly. It is a gold 20-peso piece, the design having the Mexican eagle on one side and a reproduction of the Aztec calendar on the other. They will be known as "calendarios."

SPIRITUALIST CONVENTION

Will Be Held at Queen City Park July 29 to Aug. 25.

The 37th annual session of the Queen City Park Spiritualist association will be held at the park July 29 to Aug. 28.

Sunday, July 29, opening remarks by President Alonzo F. Hubbard of Tyson, assisted by others; H. Leroy Clough, address and messages, in the afternoon; address and messages in the evening. Tuesday, July 31, H. Leroy Clough, address and messages in afternoon. Wednesday, Aug. 1, the same as Tuesday. Thursday, Aug. 2, to be supplied. Ballot reading in the evening. Friday, Aug. 3, H. Leroy Clough, address and questions answered, in afternoon; entertainment in evening; Saturday, Aug. 4, H. Leroy Clough, address and messages, afternoon; questions answered in evening. Sunday, Aug. 5, President A. F. Hubbard, address and messages, in afternoon; questions answered and messages in evening. Tuesday, Aug. 7, symposium, N. S. A. day, afternoon; messages in evening. Wednesday, Aug. 8, women's day, opening address by Mrs. Hester M. Poole; messages in evening. Thursday, Aug. 9, Mr. Clough, address and messages, afternoon; messages in evening. Friday, Aug. 10, Mr. Clough, address and messages in afternoon; entertainment in evening. Saturday, Aug. 11, Rev. George A. Fuller, address in afternoon; messages in evening.

Sunday, Aug. 12, Mr. Clough, address and messages, in morning; Rev. George A. Fuller, address in afternoon; Mrs. S. V. Black, messages, afternoon; messages, evening. Tuesday, Aug. 14, Rev. George A. Fuller, address, afternoon; Mrs. S. V. Black, messages, afternoon; messages, evening. Wednesday, Aug. 15, Rev. George A. Fuller, address, afternoon; messages, evening. Friday, Aug. 17, ladies' bazaar. Saturday, Aug. 18, Rev. George A. Fuller, address, afternoon; Mrs. S. V. Black, messages, afternoon; symposium and messages, evening.

Sunday, Aug. 19, Rev. George A. Fuller, address, morning; Rev. B. F. Austin, address, subject, "Why Spiritualism Must Win the Day," afternoon; Mrs. S. V. Black, messages, evening. Monday, Aug. 20, Rev. George A. Fuller, address, evening; Mrs. S. V. Black, messages, evening. Tuesday, Aug. 21, Rev. B. F. Austin, address, subject, "How I Know the Dead Return," afternoon; Rev. B. F. Austin, stereoscopic views, "Philosophy of Wit and Humor," evening. Wednesday, Aug. 22, Rev. B. F. Austin, address, subject, "Common Origin of All Religions," afternoon; Mrs. S. V. Black, messages, evening. Thursday, Aug. 23, Rev. B. F. Austin, address and messages, afternoon; Rev. B. F. Austin, stereoscopic entertainment, evening. Friday, Aug. 24, Rev. B. F. Austin, address, subject, "Soul Power," afternoon; subject, "Soul Power," evening. Saturday, Aug. 25, Rev. B. F. Austin, address, subject, "Wonderful Power of Thought," afternoon; Mrs. S. V. Black, messages, afternoon; Rev. B. F. Austin, stereoscopic, "Spirit Philosophy," evening.

Sunday, Aug. 26, Rev. B. F. Austin, address and messages, morning; Rev. B. F. Austin, address, subject, "Bible and Spiritualism," afternoon; Mrs. S. V. Black, messages, afternoon; symposium, evening.

Among the talent engaged are Rev. George A. Fuller, pastor of the Independent Liberal church at Greenwich Village, Mass., well-known in the early history of Queen City park; Rev. B. F. Austin of Los Angeles, Cal., publisher of "Reason"; Mr. and Mrs. S. V. Black of Quincy, Mass.; Dr. and Mrs. S. B. Brand of Hartford, Conn., able psychics; Madame E. VanCurler, the blind medium, who has been at the Queen City park camp for 15 years.

ASPHALT INDUSTRY PROSPEROUS.

Statistics just completed under the supervision of J. D. Northrop of the United States geological survey, department of the interior, indicate that the year of 1916 was one of prosperity for the asphalt industry in the United States. The quantity of natural asphalt, including bituminous rock, grahamite, gilsonite, wurtzite, and the natural paraffin, ozokerite, produced and sold at mines and quarries in the United States in 1916, was 98,477 short tons, valued at \$823,281, a gain of 22,276 tons, or 30 per cent, in quantity, and of \$386,791, or 75 per cent, in market value, compared with 1915. All branches of the asphalt industry shared in the general prosperity, and the gains in output included, except for grahamite, each of the principal varieties of natural asphaltic material produced in the country. Ozokerite from domestic sources re-appeared in the statistics of production for the first time since 1907.

The quantity of manufactured asphalt produced in 1916 from crude petroleum of domestic origin increased only 3 1/2 per cent as compared with that produced in 1915 and the quantity of similar material manufactured in this country from Mexican petroleum increased 47 per cent, as consequence of which the net gain over production in 1915 was nearly 20 per cent.

The total sales in 1916 of manufactured asphalt derived from domestic petroleum amounted to 688,334 short tons, valued at \$6,178,851. Of this quantity 404,009 tons, valued at \$3,588,003, consisted of road oils and fixing material, and 284,325 tons, valued at \$2,590,848, consisted of solid or semi-solid products utilized for paving.

California led all other states in the production of manufactured asphalt, its output from sixteen refineries in 1916 amounting to 257,930 short tons, valued at \$1,958,946, and consisting of 108,228 tons of road oils and fluxes, valued at \$633,579, and 149,702 tons of paving residuals, valued at \$1,325,367.

The total sales in 1916 of manufactured asphalt derived from Mexican petroleum amounted to 572,387 short tons, valued at \$6,018,851. Of the quantity sold, 295,682 tons, valued at \$2,466,938, consisted of road oils and fluxes, and 276,705 tons, valued at \$3,551,913, consisted of residuals utilized for paving.

Sporting Notes.

"Big Ed" Walsh, formerly of the Chicago White Sox, and once the leading pitcher of the country, has been signed by the Boston Braves with the condition that if he is not desired he may be released unconditionally.

Neph, the Boston pitcher, appears to be the Braves' leading finger this season, as he has won nine and lost three games.

Wortman, the Cubs' shortstop, was kept busy in Friday's game between Boston and Chicago, when he handled eight chances without an error.

Heilmann, Detroit's first sacker, had a big day Friday, when he secured three singles and a triple in four trips to the plate, in the Detroit-New York game.

Chicago kept Kelly, the Braves' left fielder, busy in Friday's game, he having been credited with six putouts.

In Friday's game between Boston and Chicago, no Chicagoan succeeded in getting beyond second base.
